Experience

Campus Space

Fullstack and Mobile App Developer - Remote

04/2025 - 05/2026

- Spearheaded the development of core features for **Campus Space**, a social and business platform tailored for Nigerian university students.
- Engineered clean, modular, and maintainable code across the full stack using **NextJs**, **Node.js**, **Mongodb**, **Typescript** and **React Native**.
- Built scalable and performant APIs to power real-time interactions, user authentication, and other functionalities.
- Collaborated with cross-functional teams to improve UX/UI and drive user adoption across multiple universities.
- Focused on low-latency and high-availability architecture to support the growing user base and real-time features.

Silicon Delta Innovation Hub

Fullstack Developer - Port harcourt, Rivers state

02/2024 - 07/2025

- Led a team of developers in building and maintaining full-stack applications using React, NextJs, TypeScript, and Node.js, focusing on performance, scalability, and maintainability.
- Collaborated with product managers, designers, and QA engineers to gather requirements and deliver solutions aligned with client goals.

- Led regular code reviews and implemented best practices to ensure quality and consistency across the development team.
- Mentored junior developers, fostering growth within the team through knowledge sharing and technical guidance.

Skillz Systems

Full Stack Web Developer - Abuja

02/2024 - 06/2025

- Worked team of developers and designers to build and maintain scalable web applications using React, TypeScript, Laravel, and Node.js, ensuring high-quality code and adherence to best practices.
- Designed and implemented RESTful APIs in Node.js and Laravel to support business requirements and improve system performance.
- Collaborated with cross-functional teams, including product managers, designers, and QA, to deliver end-to-end solutions that improved user experience and system functionality.
- Utilized version control (Git) and CI/CD pipelines for automated testing and deployment, ensuring timely release of features and fixes.

Tidier AUM

Lead Fullstack Developer - Port harcourt, Rivers state

04/2024 - 07/2024

- Developed and maintained a dynamic service booking platform that allows users to book various services such as cleaners, cooks, and other household help, utilizing React, ExpressJs, and Node.js.
- Implemented real-time booking updates and notifications using web socket technology to keep users and service providers informed of changes and confirmations.
- Collaborated with UX/UI designers to create responsive and user-friendly interfaces.
- Integrated third-party services such as geolocation APIs, to enhance functionality and user experience.

Rewod Technologies

Full Stack Web Developer - Port Harcourt, Rivers state

12/2022 - 10/2023

- Wrote clean, reusable, and well-tested code with a strong focus on readability, performance, and long-term maintainability.
- Designed and built low-latency, high-availability APIs and applications optimized for scalability and efficiency.
- Integrated third-party financial services such as **Paystack**, enhancing payment functionality and user experience.
- Delivered end-to-end fullstack solutions using **React, Node.js, MySQL, and FastAPI (Python)** across several production-grade projects.

Skills

Problem-Solving, Communication, Teamwork, Adaptability, Time Management, Critical Thinking, Creativity, Leadership

Education

SOFTWARE ENGINEERING

Federal University of Technology, Owerri

Currently studying Software engineering (B.Tech)
